### UNITED WE STAND.

BY STANLEY.

I would not sound a wailing note,
Did I not think the hour had come
When all should speak, with trumpet throat,
The dangers of our blood bought home.

We have forgot our slaughtered sires!
For traitor men, from north to south,
Sit by their peaceful household fires,
And teach *disunion* to our youth.

Long years our fathers bravely fought,
Their tried swords ever girded on;
We value not the homes they bought—
We value not our WASHINGTON!

For now, 'mid curses fierce and deep,
The seeds of discord wide are strewn,
God! what a harvest must we reap,
Unless thy mercy help us soon!

God is our trust; for this dear land,
Ye patriots true, go pray and weep!
For the whole UNION take your stand!
This is no time for men to sleep!

Well may the true souled patriot sigh
When men forget what made them free—
What tears, what groans, what blood did buy
This glorious nation's liberty!

Then tell us how our fathers fought,
And sound once more the din of war,
Only to teach us what it wrought—
What those great patriots suffered for.

Paint us our noble WASHINGTON
Crossing the stormy Delaware,
Show us the fields so dearly won,
And all the prostrate heroes there.

And let us gaze on Bunker Hill,
'Till our eyes beam with patriot tears,
'Till patriot thoughts our bosoms fill
And hallow all our coming years.

### THE FAULTS OF OTHERS.

What are another's faults to me,
I've not a vulture's bill
To peck at every flaw I see,
And make it wider still.

It is enough for me to know
I've follies of my own,
And on my heart the care bestow,
And let my friends alone.

### A LADY'S MAN.

How much at home was Charles in all
The talk aforesaid, nicknamed "small;"
Seldom embarrassed, never slow,
His maxim always "touch and go"—
From grave to gay he ran with ease,
Secure alike in both to please.

### Sabbath Bells.

The following from Douglass Jerrold's St. James and St. Giles, breathes a beautiful sentiment and pathos, that will command the admiration of the reader.

"There's something beautiful in the Church Bells, don't you think so, Jem?" said Capstick in a sudden tone of voice. "Beautiful, and hopeful: they talk to high and low, rich and poor, in the same voice; there's a sound in 'em that should scare pride, and envy, and meanness of all sorts, from the heart of man; that should make him look upon the world with kind, forgiving eyes; that should make the world seem to him, at least for a time, a holy place. Yes, Jem, there's a whole sermon in every sound of the church bells, if we only have the ears to rightly understand it. There's a preacher in every belfry, Jem, that cries, 'poor, weary, struggling, fighting creatures, poor human things, take rest! take rest, be quiet. Forget your vanities, your week-day craft, your heart burnings! And you, ye humble vessels, gilt and painted, believe the iron tongue that tells ye, that for all your gildings, all your colors, ye are the same Adam's earth with the beggars at your gates.' Come away, come, cries the church bell, and learn to be humble, learning that, however daubed and stained, and stuck about with jewels, you are but grave clay. Come, Dives, come, and be taught all your glory, as you wear it, is not half so beautiful in the eyes of heaven as the sores of uncomplaining Lazarus! And ye, poor creatures, livid and faint, stinted and crushed with the pride and hardness of the world, come, come, cries the bell with the voice of an angel! come and learn what is laid up for ye: and learning, take heart, and walk among the wickedness and cruelties of the world calmly, as Daniel walked among the lions."

Here Capstick, flushed and excited, wrought beyond himself, suddenly paused. Jem started astonished, but said not a word. And then, Capstick, with a firmer manner, said: "Jem, is there a finer sight than a stream of human creatures passing from a Christian Church."

### Scissors and Paste.

For the information of *setch* as have been unable to attend the opera, we quote from the Buffalo *Republic's* "Answers to Correspondents:"

"*Il Trovatore*" is the name of an opera translated; it means "A Sick Stevedore." He became ill from rolling a barrel of paragoric over his foot.

It is a popular fallacy to think that you can make pork out of pig iron, or that you can become a shoemaker by drinking sherry cobblers.

To get rid of bedbugs, take corrosive sublimate and daub it all over your bedstead. Then burn the bedstead and bed clothing, and move into another house.

"Pray, friend, are you master of this house?" asked a traveller at an inn.

"Yes sir," answered the host with a smile, "my wife has been dead three weeks."

"You'll have to bear the responsibility," said a mother to a bright-eyed young daughter, who thought of marrying without the maternal approbation. "I expect to bear several, ma," said Fanny.

Doodles, says the Savannah *News*, opened a gate for some ladies, and was complimented for his gallantry. "No," said Doodles, "*gal-antry.*" Good for Doodles.

An old settler out west, who was elected Justice of the Peace, couldn't raise money enough to pay an officer for swearing him in, so he stood up before a looking-glass and qualified himself.

A cotemporary, noticing the appointment of a postmaster, remarks:

"If he attends to the mails as well as he has to the females, he will make a very active and efficient officer.

I've seen her out a walking, in her *habit de la rue*, and it ain't no use a talking, she's punkins and a few. She glides along in beauty, like a duck upon a lake—Oh! I'd be all love and duty, if I only was her drake.

"Sam, you little imp!" said a tender-hearted mother to her dear, little son, "what on earth did you throw the kitten into the well for?"

"O, cos I's crazy!"

"Come to your ma, you little cherub!"

A Quaker having sold a fine-looking but blind horse, asked the purchaser: "Well, friend, dost' thou see any fault in him?"

"No," was the answer.

"Neither will he see any in thee," said old Broadbrim.

A gentleman having just returned from a party the other evening, was asked whether he had seen Miss S——, a young lady noted for her low-necked style of dress, replied that he had seen a *good deal of her.*

A shrewd little fellow, who had just begun to read Latin, astounded his maiden instructress who was fast approaching a certain age, by the following translation: "*Vir*, a man; *gin*, a trap; Virgin, a man-trap!"

"My son," said Spriggles senior to Spriggles junior, thinking to enlighten the boy on the propagation of the hen species, "my son, do you know that chickens come out of eggs?" "Do they?" said Spriggles junior, as he licked his plate, "I thought eggs come out of chickens!" Thus ended the first lesson.

"Why may there not be another Homer, another Milton, another Shakespeare, another Jesus Christ?"—*Ralph Waldo Emerson.*

It is hardly worth while to say why, but if any inquisitive critic should ask why there might not be another Emerson, he would probably answer himself by saying that nature exhausted her stock of blasphemous audacity in making the first. —*Exchange.*

### Questions Answered.

The Nebraska *Post*, under the above caption, goeth it thus:

A few days since we received a letter from a friend at the east, making inquiries in regard to our Territory, from which we take the following questions and append the answers:

We have been in Nebraska but a short time, and our knowledge being somewhat limited, we hope due allowance will be made for any misstatements.

"What kind of a country do you live in?"

Mixed and extensive. It is made up principally of land and water.

"What kind of weather?"

Long spells of weather are frequent.—Our sunshine comes off principally during the day time.

"Have you plenty of water, and how got?"

A good deal of water scattered about, and generally got in pails and whiskey.

"Is it hard?"

Rather so, when you have to go half a mile, and wade in mud knee deep to get at it.

"What kind of buildings?"

Allegoric, Ionic, Anti-Caloric, Log and Slab. The buildings are chiefly out doors, and so low between the joints that the chimneys all stick out through the roof.

"What kind of society?"

Good, bad, hateful, indifferent and mixed.

"Any aristocracy?"

*Nary one.*

"What do your people do for a living mostly?"

Some work, some laze around, one's a shrewd business manager, and several drink whiskey.

"Is it cheap living there?"

Only five cents a glass and the water thrown in.

"Any taste for music?"

Strong. Buzz and buck saws in the day time, and wolf howling and cat fighting of nights.

"Any pianos there?"

No—but we have several cow-bells, and a tin pan in every family.

"Any manufacturers?"

Every household. All our children are home productions.

"What could a genteel family in moderate circumstances do there for a living?"

Work, shave notes, fish, hunt, steal, or, if hard pinched, buy and sell town property.

"Are your people intelligent?"

Some know everything that happens, and some things that do not.

"Would they appreciate a well-bred family of sons and daughters?"

Certainly. Great on blooded stock; would take them to our next territorial fair and exhibit them.

Dear friend, your questions are answered. Bring on your well-bred stock and make your home with us.

### Cultivate and Improve.

Deterioration in plants and animals, is as possible of improvement. Nations, once renowned as the perfection of the human race, by neglect, have sunk back into barbarism. Egypt was once so learned, that it is recorded, as a striking mark of his greatness, that Moses "was learned in all the wisdom of the Egyptians."—Egypt is now a semi-barbarous province of Turkey, so poor that none do her reverence. The Bedouin robber makes his haunts where was once the Alexandrian School, from which has come much of our civilization and science. Tyre, celebrated in Holy Writ for her knowledge in the arts and navigation, has lost her designation as "Queen of the Sea," and scarcely a vestige of her greatness, her art, or her power remains.

We might extend our illustrations of the truth of our position, at the expense of our pride of human progress, but these will be sufficient.

The best breed of animals extant, turned into the wilderness, will soon lose their distinctive qualities, and assimilate to the original wild stock. But a few generations are required to change the Berkshire, or China, into the long nosed, flap-eared wild hog, from which all our varieties have sprung.

So with our fruit. Let the best variety of apple known, grow up in the hedge, or in the woods, and in a short time the descendants will be no better than crabs.

We may follow this law of deterioration through the whole vegetable and animal creation, and we shall find it unerring—what is not progressing, is retrograding. Every farmer, then, may make up his mind that unless, by his efforts, properly directed, in taxing nature, he is improving his stock, and other products, they will deteriorate in his keeping. If we eat our best and earliest grain, generation after generation, or sell it because the immediate profit is greater, the rich wheat kernel will soon become a shriveled concern, as unlike its ancestor as a crab is to a pipin.

By cultivation, all our choice varieties of apples have been produced from the wild crab of Asia—by neglect, they will return to that again. Our best varieties of peach have been, by cultivation, produced from a fruit of Persia, that possessed, in its whole mass, the poisonous property that is now in the seed; and a person eating some of the rich, pulpy varieties of pears, can hardly imagine that it is a descendant of what Pliny described, eighteen hundred years ago, when he said, "all pears whatsoever, are but a heavy meat, unless they be well boiled or baked."

While such has been the progress forward, of many of the fruits, others have greatly deteriorated, or progressed backward. Not long since, some wheat kernels were found in the coffin of one of the Gallic Kings, who had been buried fourteen hundred years. The wheat, in its botanical character, is identified with the wheat of the present day; and yet on being planted, it produced from sixteen to twenty stalks, to each grain; and had an average of twenty more grains to a stalk, and each grain heavier than our common wheat.

This shows that wheat culture has dwarfed the crop in the last fourteen centuries so as to almost make the plant a different species; and every year's cropping is making it less, and less likely that we shall keep even the present deteriorated article good without constant care and skill in the use of fertilizers, and in the selection of seed.

The descendant of vegetables, as well as of animals, are the representatives of their ancestors. If consumption, scrofula, or other disease exist in the parent, it will appear in the chi dren; and though it may sometimes pass over a single generation, it is sure to appear in the next. It is so with the vegetables; sow peas, full of bugs and you will get buggy peas; sow wheat, full of weavil and smut, and you will reap a rich crop of weavil and smut; sow shriveled and late ripened wheat, and it will require a miracle to produce a good crop.

In the retrograding scale, the descendants are always worse than the parents.—In the human race, avarice in the parent make a thief of the child—the principle is inherited, but it is more fully developed. So in all animals and vegetables, the bad traits in the parents, are inherited by the offspring, and more fully developed. Deterioration thus goes on, in an accelerated ratio, until we can scarcely trace a resemblance to the ancestor.

Let every farmer, then, conscientiously resolve never to allow a good article to deteriorate on his hands; but, by taxing the forces of Nature, to improve whatever is intrusted to his care. Let him resolve, not only to compel the earth, to yield her increase in abundance, but that the abundance shall be improved in quality.

HE IS ONLY A PRINTER.—The following tribute to the noble preservative art we find in a cotemporary, and commend its strong contrast to the intelligent reader:

"He is only a printer! Such was the sneering remark of a leader in a circle of aristocracy—the codfish quality. Who was the Earl of Stanhope? he was only a printer. What is Prince Frederick William, just married to the Princess Royal of England? he, too, is a printer. Who was William Caxton, one of the fathers of literature? he was only a printer. What was George P. Morris, N. P. Willis, James Gales, Charles Richardson, James Harper, Horace Greeley, Bayard Taylor, Charles Dickens, Thiers, Douglass Jerrold, George D. Prentice, and Senators Dix, Cameron and Niles? They, too, were printers. What was Benjamin Franklin? he also was a printer And last, though not least, what is James Buchanan, who occupies the most enviable position on earth? Only a printer! Every one cannot be a printer—brains are necessary.

Justice Purdy married a couple yesterday who fully merit the felicity which they will doubtless enjoy in connubial union. The bridegroom was an old bachelor, whose years numbered three score and ten, and whose looks betokened him innocent of womankind. His bride was a widow, who asserted that she was but 57, but the bystanders set her down at 80. It appears that the widow, in the exercise of those winsom ways which widows do affect, inveighled the bachelor into an attachment which both parties proposed to consummate in matrimony.—An objection arose, however, in the shape of several infants, 20 or 30 years old, belonging to the widow, who most decidedly objected to her marrying. In this dilemma they resorted to the usual dodge peculiar to young people and eloped. As they lived in Canada, the only place to elope to was the United States, and they accordingly came to Detroit; the groom coming first, and the widow joining him afterwards. Their delight at the successful determination of their romantic adventure was unbounded.—*Detroit Free Press.*

### POLITICAL.

The coming Democratic State Convention to be held soon at Sacramento, it seems will be important in a feature not usually recognised by the Democracy as *very* consequential in political campaigns hitherto. As a nominating Convention, which is its true legitimate capacity, this one shortly to come off, is certainly unimportant, as a candidate for but one office of consequence is to be nominated. But its importance arises from the fact that predominance in the Convention is to be a test of strength between the Douglass and Administration wings of the party. To secure this supremacy, the partisans, office seekers, and the politically *eminent* of both parties, are doing their best; and in many places the election of delegates to the State Convention has occasioned as much strife and awakened as much animosity and bitterness as might be expected between two parties differing entirely in principles, at a regular election. All this will result only in increasing the differences of the Democratic party; which at first were small, but which now are quite large enough to threaten its disruption. We never have thought yet that because Douglass and the President differed in opinion regarding the admission of Kansas, that their difference was good grounds for a "burst up" of the party. But it appears that it is to be so, and the sore is to be kept open by just such action as will occur at this Convention. Senator Broderick too, is involved in the "muss," and having acted with Douglass, will be condemned if the Administration men can do it; and on the other side Senator Gwin will get warmed, if the "mud sills" are sufficiently numerous to have things their own way.—Now, for the *fiat* of condemnation to go forth from a Convention against either of these Senators because he did or did not support the Administration in each and every particular, is ridiculous. Why not condemn both Senators for telling the Administration, as they did, that the pledges of 1856 regarding the Pacific Railroad were violated? or why not condemn the President for having been influential in such violation? Administration men are wonderfully intolerant, as well as loyal. They are aristocratic withall; particularly the old ones—"ancient Democrats"—and they call upon all to hear of *their* service—and behold *their* scars—should any unfortunate wight express an independent opinion differing from theirs, or act otherwise heretically, he is immediately cast out and crucified if possible. That a Democrat should be *read* out of caste and party because he thought the Administration wrong upon Kansas matters, though agreeing in other respects, and believing fully in the Democratic party and principles, is a beautiful doctrine. It is of no use to talk of Know Nothing intolerance of religious opinion, for here is proscription of conscientious opinion and conviction. The Douglass party, which in our opinion, comprises some of the most reliable Democrats as well as able men, are very much disposed to remember the insults heaped upon them by the Administration party for their difference of opinion regarding Kansas. Douglass, Forney and Walker, than whom, none have contributed more to the success and respectability of the Democratic party, are denounced as traitors and Black Republicans by a set of "blow hards" and donkey Democrats, who should be politically tethered out in some place where they can neither be seen nor heard.

The Kansas difficulty is virtually settled, and so should be the disputes, differences, and breaches in the Democratic party occasioned by this vexed question. It is much to be feared that such Conventions as the one soon to be held in Sacramento, will not be at all effective in uniting the party. We look for a wider separation and a more uncompromising hostility between those differing.

A general acquiescence to principles, well defined and fundamental in their character, is all that an *intelligent* party adopting such principles can require of any individual. So should the Democratic party act—that while all uniting in the support of its great principles, there can be in its ranks an individuality of thought and a freedom of opinion without a loss of caste, or of party virtue.

### CLOSING OF STORES ON THE SABBATH.

Nothwithstanding the decided unconstitutionallity of the Sunday law, our merchants with commendable propriety, have mutually agreed to observe that day by the closing of their stores after the hour of ten o'clock in the morning, as will be seen by the following:

We, the undersigned, Merchants and Traders doing business in the Town of Mariposa, have agreed and do agree by these presents, to close our doors, at 10 o'clock P. M., on each Sabbath succeeding that of July 25th, 1858. And hereafter, on the day and after the hour designated, we will neither sell goods or trade in any manner whatever, and for the faithful performance of this agreement, we pledge each other our word of honor.

Given under our hands this, the 24th day of July, 1858.

Warning to Circus and Theatrical Humbug Shows.—An itinerant *suckus* company was used up last week, in San Francisco, upon the first evening of its exhibition. Its auditers, who were numerous, finding themselves grossly deceived in the merits of the performance, concluded to demolish the "institution," which object they accomplished most effectually. The tent, wardrobe, and everything connected with the establishment was destroyed, and "served them right," is the verdict of the universal community. There are more companies of these gulling vagabonds about the country, to whom similar treatment would be but strict justice.

Sentenced.—LaFayette Choiser, convicted of manslaughter, at the present term of the District Court, for the shooting of Beigler, in Bear Valley, some months since, was on Saturday last, sentenced by Judge Burke, to 5 years imprisonment in the State Prison. An appeal to the Supreme Court was taken from this sentence, and the prisoner allowed his liberty upon his giving bail in the sum of $5000.

Rape.—A brute in human form, says the Napa *Reporter*, entered the house of a respectable married lady, residing near town, on Thursday night, 8th inst., and violated her person. We omitted to mention the fact in our last, as the officers were in pursuit of the wretch. We regret to state that, so far, the most vigilant efforts have failed to identify and arrest the guilty party.

### LOCAL ITEMS.

....New Diggings have recently been discovered in Merced County, near where the road which leads from the Merced River to the San Joaquin, crosses Burns' Creek. On Monday of last week, one man using a rocker, washed out $13—90 buckets of dirt on Tuesday produced $16, and extraordinary wages have been made each day since. The gold is quite coarse and free from extraneous substances. The *locale* of this discovery is on the edge of the plains, and appearances denote that a heavy stream of water has at sometime passed out of the mountains at this point. It is thought that the diggings are extensive, and also that "hill diggings" exist, as they doubtless do, in the mountains bordering upon the plains, near the place where this discovery was made.

We are informed of the above by Mr. Wm. J. Howard, formerly a member of the Legislature from Merced County, whose Ranch is near the locality mentioned, and who is conversant with the facts.

....Watermelons made their appearance in our market last week. "Hookey" Wilson came up from Merced County with a lot of fine ones, and large, some weighing 30 lbs. "Hookey" will run during the melon season, and may be expected at intervals of two or three days with fresh lots. For the favors extended this office he will please accept our thanks.

....Ford & Nye, Forwarders and Commission Merchants of Stockton, last week shipped from that place on a single team belonging to Mr. Warren, 30,000 lbs.—of which a small amount was delivered at the Merced River, and 25,600 lbs. brought to Sullivan & Co., in this place. Mr. W. is one of the regular teamsters of the firm mentioned, and seldom brings less than 24,000 lbs., or 12 *tons* as a regular load.

....Pasturage has entirely failed in many places in Merced and Fresno Counties. Many rancheros are driving their cattle into the mountains.

....A large drove of Hogs were driven into Yo Semite Valley, by Mr. Joel Westfall, of this place. Mr. W. informs us that he has met with little or no loss in stock as yet, and that it thrives and fattens remarkably.

....Messrs. McDermott & Co. are about to erect a large fire proof Store upon the lot formerly occupied by "Merritt's Building," opposite Cohn & Dettlebach's, on Main Street. The site is an excellent one for business, and this firm, when established in their new location, will doubtless receive, as they should, an increase of patronage as a reward for their enterprising spirit.

....M. Kraft has removed to his new store, Main street, upon the site of his former one, where may be found his usual stock of Clothing, Dry Goods, &c.

....Cohen, Samuels & Co. are again occupying their former place of business on Main street. A good stock of Goods kept constantly on hand, Clothing, Dry Goods, &c.

....Justice Washburn, on Saturday, observing an old respectable member of his "hennery" apparently in a state of distress, instituted an examination as to the cause. "Biddy" was caught, and it was immediately found that she was in a bad way. To relieve her from misery, she was decapitated. A *post mortem* examination was then held, and from the body was taken *twenty seven* full sized eggs, and *twenty-four* others of smaller sizes. Whoever heard of the like?

....Peaches have made their appearance the present week in our market. They were brought from Ostrander's Ranch, Merced County. The fruit was of fair size and excellent flavor.

....A Republican Convention, the first ever held in this County, assembled in Bell's Building on Saturday last. About thirty *unarmed* Delegates were present. The proceedings were harmonious and unanimous. A general feeling of "Yankee Doodle keep it up," was apparent. Their doings will be found in another column.

### FROM TULARE COUNTY.

Mr. J. N. Thomas, a former valued resident of this place, but who, in a moment of indiscretion, moved off to Visalia, informs us that affairs are progressing finely in that "Cow" County.... Much better crops have been raised than had been anticipated in the early part of the season, which was attributable to the overflowing of the streams to a considerable extent, caused by the sudden melting of snows in the mountains.... Farmers are building good houses and fencing largely at present, and improvement is every day manifest.... Visalia is growing slowly but steadily, and has a healthy trade with the rancheros.—Returns for goods, however, cannot be made as soon as in a mining community. ...Money is only plenty periodically, when Farmers turn off their products.... Considerable mechanical business is carried on at the place, and are doing well.

Mr. Thomas is unable to speak of the virtues of that community, particularly that one known as "Temperance," in terms of commendation, which we much regret. However, since the establishment of Ned Hart's Land Office, in Visalia, an improvement is confidently and reasonably anticipated, &c.

New Method of Separating Gold from Quartz.—Within the past week a machine has been put in operation at Col. Fremont's Quartz Mill, in Bear Valley, for the separation of gold from the tailings of the Mill. We have not as yet seen it, nor have we been favored with a decription sufficiently particular to state its manner of construction or mode of operation. However, it appears that the tailings are worked *dry*, not a drop of water being used. It is by an arrangement and operation of bellows that the separation is effected—that one ton can be worked per hour—and further, that $50 has been taken from a ton of the tailings of the Quartz Mill mentioned.

To test the perfection of this gold saving process, we are informed that 26 grains of gold were put in two buckets of clay and thoroughly desseminated throughout the whole mass. The clay was then dried, pulverized, and passed through the machine, ween it was found that 24 of the 26 grains was saved.

The invention is a recent one; and this is the only machine of the kind in the State, and has just arrived. If one half said regarding it is correct, it far exceeds anything before invented for the purpose for which it is used. We hope to be able to give our readers a full and complete description of the machine, its mode of operation, and its adaptability as a gold saver, in our next issue.

☞It is most desirable, certainly, that every woman properly circumstanced and properly connected by indissoluble ties to any of the lords of creation, (and they should all strive to be thus situated), should have a "bab-by." This species of produce helps along mightily. Thereby is shown the capacities of the parent—population is increased—a well-spring of pleasure, with a pump in it, is established in the household wherein the "brat" appears. The female proprietor thereof, has something else to do and to occupy her mind besides "gab," and the scandalizing of her neighbors—quite a number of whom are miserable Bachelors, who have tried and couldn't—and worn their knee pans out and clothes threadbare, while imploring, in humiliating postures, some female to allow him the privilege of supporting and supplying her through life, with nourishment, raiment, hoops and creature comforts; inferior though she be and always is, physically, mentally and scripturally. Another benefit of babys: The "he" proprietor of a lively, unmanageable, squalling "Young America," is apt to become consequential and moderately decent in his daily walk and conversation. He looks "pussy," and has an air not before observable—abstains from drink, billiards, cigars, and other corruptible and carnal delights—and is exemplary on the "brat's" account. He submits with great grace to the expenditures for yellow flannel, diaper and paregoric, and bears up under the martyrdom of sleepless nights, occasioned by the troubles of his future representative, with fortitude.—By all this, he is under bonds to act becomingly and respectably. We do so like to hear of the advent of these embryo "squabs" of future greatness—send in the account of their appearing—giving the sex, the pounds and ounces, avourdupois, of their terrestrial gravity; the remakable circumstances, and we will publish it, without the first remunerative "red."

Quartz Convention.—A Convention of the Quartz miners of the State, will be held in San Francisco on the 7th day of September next, at which it is expected there will be a full representation of those identified with this important interest.

### REPUBLICAN CONVENTION.

A respectable number of the Republicans of this County, met in Convention, at the residence of Sam Bell, Esq., in Mariposa, on Saturday, the 24th inst., pursuant to call, and organised by electing C. E. HOLT, Esq., President, and J. C. Hopper, Secretary.

The object of the Convention—to elect Delegates to the State Convention—were briefly explained by Sam Bell, when, on motion of B. F. Bachman, the Chair appointed a Committee to nominate seven Delegates to the State Convention, consisting of Messrs. Bachman, Williams and Hayes. After a short consultation, the Committee reported the following: Messrs. Sam Bell, J. B. Felch, J. C. Hopper, C. E. Holt, Biddle Boggs, E. G. Barton and C. F. Robinson, who were, on motion, unanimously confirmed.

On motion of R. F. Williams, the Chair appointed the following Committee to draft Resolutions, viz.: R. F. Williams, E. G. Barton, George A. Hayes, W. C. Dermady, John Pettit, Charles Peregov and James I. Stuart, who, after a brief interview, reported the following:

Your Commiitee recommend to this Convention the adoption of the Philadelphia Platform as embodying the principles of the Republicans of this County: and further recommend that

This Committee present to the consideration of the party, throughout the Union, the name of Col. JOHN C. FREMONT, as the Republican Candidate for the Presidency in 1860.

The report of the Committee was unanimously adopted.

The Convention then proceeded to the selection of a County Central Committee, and the following gentlemen were nominated and confirmed:

*Mariposa.*—Sam Bell, B. F. Bachman, Dexter White, John C. Hopper.
*Mormon Bar.*—A. B. Putrament.
*Hornitos.*—J. Lennebacker.
*Corbett's Creek.*—L. F. Jones.
*Cathay's Valley.*—Daniel Wood.
*Bear Valley.*—J. B. Felch, Biddle Boggs.
*Coulterville.*—C. F. Robinson.
*Agua Frio.*—David Turner.
*Boling's Ranch.*—Thomas Chapin.

Sam Bell offered the following, which was adopted:

*Resolved*, That in the event of the non-attendance of the entire Delegation of this County to the Republican State Convention, to be held at Sacramento, on the 5th of August next, the Hon. Gilbert A. Grant be, and he is hereby authorised to cast the vote of this County in said Convention.

On motion, the Secretary was directed to furnish copies of the proceedings to the *Gazette* and *Star* with a request for publication.

The Convention then adjourned *sine die.*

### THE WASHINGTON BRASS BAND.

For the past three or four years the citizens of this place and vicinity have been under many obligations to this Band for furnishing often excellent music for their gratification and enjoyment. These obligations we conceive, have not been expressed in *any* manner as *often* as should have been done; and when expressed, they have been in the form of thanks, too often silent at that, rather than in the form of substantial encouragement. This is not as it should be; and we think it is owing to the negligence on the part of our citizens, or a want of opportunity rather than a lack of appreciation of their services. To have a band even, and particularly one capable of rendering music so effectually and satisfactorily as this, is creditable to the place, and it is more than most mining towns in this State, *larger* than Mariposo, can boast of. It is with a deep feeling of satisfaction that we often hear their martial notes and plaintive airs swell upon the evening breeze, making our valley resonant with the sounds of Home, refreshing remembrances of other times in more favored countries.

The Band now numbers, we believe, ten members and is in an efficient condition. Mr. William Stark, an excellent musician, is their leader. We trust that they will be encouraged and sustained; and if the band will but indicate the manner in which this can be done, we doubt not but that a hearty popular testimonial will be cheerfully accorded.

### FRAZER RIVER.

Of all the Gold excitement humbugs, which from time to time has affected our State, this last one probably stands at the head. More people have gone away in chase of it, gone farther, and spent more money than in any instance heretofore. According to the latest news, the deluded victims of speculation were as anxious to get back as they were to go, and with not half as many chances of accomplishing their object. Many of the Steamers been taken off the route, and the means of returning will shortly be only those existing before the gold fever broke out. Besides, quite a proportion of the people who have rushed thither are without means. The Steamship speculations would not be complete if they bring back these dupes for nothing, or for reduced rates. However, the gold hunters are coming back slowly by twos and threes, looking depleted pecuniarily and physically as might be supposed; and it is to be hoped with enough of experience to prevent them rushing off unhesitatingly again in search of reported new diggings in some far off region without consideration or the slightest exercise of common sense.

"Express" Drug Store.—At this establishment, recently opened by Messrs. Gregory & Condon, in Wells, Fargo & Co.'s Building, may be found every description of Drugs, Chemicals, Patent Medicines, &c. The establishment is under the superintendance of Charley Valentine, whose experience in the business and careful attention entitles him to entire confidence.

☞The foot race, to have come off this week between Josh Crippen, Alf Alexander, and "Red" Jack, is unavoidably postponed, as Red Jack's dropsy is "wuss." As soon as he is tapped, he will run, and is the favorite. The distance to be run is, until each contestant's wind gives out, probably from 75 to 100 yards, and the one that "draps" ahead will take the stakes.

A Biblical Description of the Frazer Disease.—Turn, beloved, says the *Talk*, to the IX. Chapter of Exodus, and from the third verse you will find these words: "And the Lord said unto Moses and unto Aaron, take to you handfulls of ashes of the furnace, and let Moses sprinkle it toward the heaven in the sight of Pharaoh. And it shall become *small dust* in all the land of Egypt, and shall be a *boil* breaking forth with blains upon man and upon beast, throughout all the land of Egypt. And they took ashes of the furnace, and stood before Pharaoh; and Moses sprinkled it up toward Heaven: and it became a *boil*, breaking forth with blains upon man and upon beast. And the magicians [wise men] could not stand before Moses because of the *boil;* for the *boil* was upon the magicians and upon all the Egyptians. And the Lord hardened the heart of Pharaoh, and he harkened not unto them; as the Lord had spoken unto Moses." After this came the pestilential hail.

Rachel remarked of a sister artiste who had red hands: "She is a pretty woman, but wears boiled lobster claws for hands."

### BEAR VALLEY AFFAIRS.

The disturbances at Bear Valley appear to be ended, at least for the present, and it is to be *expected* forever. It is plain to be seen that the people of this County, no matter of whatever opinion in regard to the justness and legality of Col. Fremont's claims, will not countenance or endorse the recent unlawful proceedings of the Merced Mining Company, and those acting with them, and we trust the total failure of this attempt will prevent the recurrence of any similar proceeding. It will be seen from the following that the Sheriff is empowered to restore to Col. Fremont that portion of the Josephine Vein, from which he was dispossessed nearly two years since.

### JOHN C. FREMONT vs. THE MERCED MINING COMPANY, JOHN VANDEWATER AND SMYTH CLARK.

This case which was once tried in Justices' Court, and decided in favor of Col. Fremont, and which was subsequently tried on appeal in County Court, and also decided in his favor, from which defendants appealed to Supreme Court, the appeal was, on the 6th instant, dismissed on plaintiff's motion. At a subsequent day, the defendants moved to reinstate the cause on the calendar, which was denied by the Court, and dismissal of defendants appeal made final.

It will be understood that the judgment obtained in this cause, in County Court, was against John Vandewater and Smyth Clark, employees of the Merced Mining Company; the plaintiff having been *non suited* as to the Merced Mining Company, upon motion of the Company's Attorney, upon the ground that a Corporation could not commit "Forcible entry or detainer."

Since the action of the Supreme Court in the premises, the Remittitur has been filed in the County Court, and a writ of Restitution of the upper shaft of the Josephine Vein and land adjoining, (worked by the Merced Mining Company since Fremont was forcibly dispossessed of the same), and execution for costs against said parties has been issued, and is now in the hands of the Sheriff of the County for service and execution.

The Great No-go-cart.—The Morning *Call* states that the "Overton Steam Wagon" is reposing, in all its useless dignity, in the yard of the Pacific Foundry, San Francisco, where it was taken for the purpose of having its manifold defects remedied. The thing looks as if it might be made to go ahead, but we should judge it an impossibility for it to back out of a scrape if ever it got into one. The inventor must have been a man somewhat after the mould of General Taylor, for he has made no provisions for retreat—he thought of nothing but advancing.

HORRIBLENESS OF FREE LOVE.—The Sierra *Citizen* says the "free love" monstrosity has not yet been killed. At Ber lin Heights, Ohio, there is a "Free Love Water Cure" establishment, and the vile tribe have control of the village and elect town officers. They publish a paper which promulgates that:

"Marriage is the slavery of women; free love is the freedom and equality of woman and man; polygamy is marriage multipled; free love is marriage abolished."

Recently, a convention of free lovers and woman-rights advocates, held a convention in New York City. One of the papers, in publishing proceedings of the convention, stated as follows:

"The women are becoming rather smutty. If they don't check their speakers, we men editors will be under the necessity of doing unto them what they generally do unto our sex—that is, check their smut! A respectable man can hardly stay in the room!"

Consider, momentarily, the horrible condition of a class of tolerated females who "act so" in their public gatherings that respectable men are required not only to blush but to retire for shame!

AN ALLEGED THIEF ARRESTED.—Two brothers named Kenney, one named Michael and the other John, from Mariposa, says the *Bulletin*, had stolen from them at that place last April $150, by a man named William Coyle *alias* McFarland, whom they had taken in and befriended. They came down to the city two weeks ago and found Coyle here. He acknowledged the theft and agreed to meet them next day and make it all right. They never saw him from that time till to-day, when he was arrested on description by Capt. Hill and officer Ellis. He will be examined in the Police Court ro-morrow. As he brought the money from Mariposa to this city he can be tried here, although the crime really was committed in Mariposa.

JAMES BRIGGS AND THE WOMEN.—JAS BRIGGS, unmarried, of Inskips, has expressed himself on women, through the Oroville *Record*—says he:

"When a woman is in the case, and has been injured, she will find in me a heart to sympathise in her wrongs, and an arm to raise in her defence. Why, woman is sublime! When we look back through the annals of history and behold Ceres with her sheaf of wheat, Diana with her bended bow, Minerva all purity, Venus arising from the crowning foam of the deep blue sea, sad Andromache and lovely Helen, we involuntarily exclaim, Woman is sublime.—*James Briggs*.

Right, Jim Briggs! says the Sierra *Citizen*. But branch out, spread, multiply; carve your name on a 'tower of sublimity'—such a sublimater should have sublimation; take, therefore, to the "sublime," Jim Briggs," and sublimate.

SINGULAR DEATH.—DAN. FERGUSON, formerly of the What Cheer House, was killed July 9, near Fort Hope, Frazer River, under the following remarkable circumstances. The Victoria *Gazette* says:

The deceased was encamped with a party of five or six others, in a tent on the outskirts of Fort Hope, preparatory to starting for the mines. On Friday morning, July 9th, some one of the party standing at the entrance of the tent, threw a loaf of bread onto a chest which stood in the far corner. The loaf bounced off, struck the cock of a gun standing in the corner, the contents of which, (large sized bird shot) were lodged in the left side of deceased, inflicting a severe, though it was not thought dangerous wound. He was afterwards taken on board the *Surprise*, and died next morning.

OVERLAND EXPEDITION TO THIS STATE.—The Memphis *Bulletin* of June 8th, says:

The troops now rendezvouing here will number two hundred, and will proceed to California by the Southern route. They will take with them some 400 horses, which are intended for cavalry service in California. The animals are now being collected here, and the number will soon be full. The Commander of this expedition will be Col. Fauntleroy, who is now in this city, superintending the arrangements for the march of the troops. Capt. Smith, of St. Louis, we learn, has also been ordered on this expedition, and will be here in a few days.

"THERE'S A GOOD TIME COMING."—The latest news from the seat of fashion, Paris, is to the effect that "long skirts and sweeping trains are to be replaced by short dresses and shorter petticoats."

ECLIPSE OF THE SUN IN SEPTEMBER.—It is reported that an Englishman has offered to place vessels at the disposal of scientific men, says the Sierra *Citizen*, for observing a great eclipse of the sun which will take place in September. This eclipse will be total, and its appearance will be best seen in South America, particularly about Lima. It is anticipated that an astronomical expedition may be organized, and in this case, foreign astronomers would be invited to join the expedition.

WAR STEAMER TO BE BUILT AT MARE ISLAND.—A Washington writer says:

Senator Gwin is urging the Navy Department to order the building of one of the new sloops at the Navy Yard at Mare Island, and I am informed by that officer that if he be satisfied that the necessary material can be had at that yard he will certainly order the steamer for the Chinese Seas to be constructed there.

PENNSYLVANIA APPOINTMENTS.—The following appointments have been made by the President by and with the advice and consent of the Senate:

COLLECTORS OF CUSTOMS.

Joseph R. Baker, district of Philadelphia.
John Brawley, district of Presque Isle.

NAVAL OFFICER.

Chambers McKibben, district of Philadelphia.

☞ Statistics of accidents upon the Railroads of Prussia during the year 1857, show a great contrast by the side of those in America. Of 18,000,000 travellers by Railroad in Prussia, only 50 were killed and 172 wounded, of whom some lost their lives by their own carelessness, and 13 were suicides.

☞ COL. HARRIS, of Illinois, when challenged by Hughes, of Indiana, not long since, named the weapons, muskets—distance, ten paces.

CALIFORNIA GOLD DUST.—Some of *that* $20,000 which has last been sent down by the Hudson Bay Company, says the *S. J. Republican*, may be easily accounted for. Three-fourths of the miners that have gone from this quarter, have taken dust in preference to coin. We have frequently seen them weigh it out for their passage money and for other expenses; and have been consulted by them as to the policy of taking it with them or selling it. We are informed of one case, the facts of which can be proved, in which certain parties in San Francisco shipped 500 ozs. to Victoria, to be exhibited by a person dressed as a miner, who would tell his own story to those who saw it.

GIGANTIC STEAM NANIGATION PROJECT.—Mr. John Clare, of Liverpool, has placed a gigantic steam navigation project before the British Government. He proposes to build a fleet of six "Mastodonian" steamships, to be used for the transportation of troops to distant possessions. Each of these steamships will be of 80,000 tons burden, and capable of steaming 500 miles per diem. They are to be wind-proof, water-proof and fire-proof, thereby making the perils of the seas a moral impossibility.

THE GODDESS OF LIBERTY.—General Houston has not a very lively appreciation of the fine arts. In the course of an art discussion in the Senate, the General commented on the statue of "the lady whom he supposed to be the Goddess of Liberty, and evidently the work of a foreigner, she being in an ungraceful attitude, clad in a classic robe with the starry zone on her forehead, and on her feet *a pair of plantation brogans!*" This was Crawford's famous statue of "America." In the classic sandals Old San Jacinto saw only plantation brogans.

☞ It is reported that Miss Charlotte Cushman is worth $300,000, and that, in the course of a few months, she will retire to her villa in Ancient Rome and end her days artistically.

COMING HOME.—A correspondent of the *Alta* says that Mr. SCOTT will leave New York on July 8th, and that Dr. GWINN may come with him.

☞ **Dr. L. J. Czapkay.**—We would direct the especial attention of Invalids to the perusal of Dr. L. J. Czapkay's advertisement, to be found in another column of this paper, to place the services of a learned and experienced Physician within their reach. So much ill has been inflicted upon the human family from the pernicious and ignorant practices of impirics, that it seems as if we were fulfilling a bounden duty to make known where judicious relief can be obtained. To those unfortunate enough to suffer from the effects of sexual or private diseases, or other ill treatment, we cheerfully commend Dr. L. J. Czapkay as a man of rare scientific and medical acquirements. Possessing all the requirements, from long experience and acknowledged skill, for the successful practice of his profession. Having made sexual complaints his especial study, like the celebrated Ricord of Paris, he is enabled to guarantee a speedy and permanent cure in all cases of private or chronic diseases, whether the effect of contagion, self-abuse, or loss of virility, and in order that patients at a distance may avail themselves of his advice, free consultation by letter is open to th m. The knowledge we have of the numerous cures he has effected, some of which were of long standing, leads us to place much faith in Dr. C's efficacy, and commend him to the confidence of those in ill health. d9

**Notice to Tourists.**

Shortest, Cheapest, and Speediest

**Route to Yo Semity Valley.**

PERSONS designing to visit the far famed and justly celebrated **Yo Semity Valley** during the present Summer, are informed that the ROUTE BY WAY OF MARIPOSA is now open, and may be traveled with ease and safety in one day and a half. This route lies through a country abounding in WILD AND ROMANTIC SCENERY.

Near the South Fork of the Merced, are beautiful MEADOWS, where the Traveler will Encamp for the night. Ample accommodations will be furnished by Mr. Galen Clark, who occupies the Meadows at this point. A short distance from this camping ground, is situated the **MAMMOTH TREE GROVE**, containing *Over Five Hundred Trees*, equalling or exceeding in size and beauty any yet discovered in California.

A GOOD BRIDGE here crosses the River, from whence to the Valley the distance is nineteen miles, over a GOOD MOUNTAIN TRAIL.

When the traveler reaches the descending point to the Valley, the view of **"Inspiration Point"** which very few persons have ever witnessed, would amply repay the visitor for the trip.

The Scenery in the Valley is beyond description, abounding in *Magnificent Water Falls* and precipitous heights, towering from 2,000 to 4,000 feet above the bed of the Valley.

As a pleasant summer excursion, the trip to the Yo Semite cannot be excelled—while the route by the Mariposa Trail, which is superior to that of the Coulterville route as every one can testify who have traveled both Trails, offers attractions and inducements superior to any other.

Visitors from San Francisco, Sacramento, Stockton, and other parts of this State, who intend visiting the Valley by the Mariposa Route, will please direct a line the undersigned, who will have horses and a guide in readiness to conduct them to the Valley without any unnecessary delay.

*Horses will be furnished at half the usual price heretofore charged.*

☞ Letters directed to A. J. MANN, Mariposa.

HO! FOR YO SEMITY VALLEY!

PERSONS proposing to visit this most **Extraordinary Natural Scenery**, during the present season, are informed that ample preparations have been made by the undersigned for the accommodation and convenence of all who may take the

MARIPOSA ROUTE

to that place.

The distance to the Valley, is about forty five miles, and is as short as any route that has a Stage connexion with Stockton.

This route abounds with varied and remarkable Scenery. The Trail, made at a great expense, is in excellent condition, and there is not a dangerous place upon the whole of it. A GOOD BRIDGE spans the only stream of consequence to be crossed on the route.

At the South Fork of the Merced, the usual terminus of the first day's travel from Mariposa, the traveler is within THREE MILES of the

Mammoth Tree Grove,

Which contains over

**FIVE HUNDRED TREES!**

Some of them are the largest now known. To this Grove, from the crossing of the South Fork, is a good Trail. Thus, upon this route are all the attractions of a visit to the Big Trees in Calaveras combined, with a view of the

**WONDERS OF YO SEMITE VALLEY!**

The second day's journey is an easy one of twenty miles Before descending into the Valley, the traveler may pass up its entire length upon the Southern side and look from perpendicular precipices at the Valley, lying more than FOUR THOUSAND FEET BELOW.

For conveniences and extended accommodations to be procured, as well as for the superior attractions of the route, Mariposa is the most eligible and best point of departure.

At the Union Hotel, or at the Stables of Messrs. Gregory and Barbour, in Mariposa, travelers will receive the necessary attentions, conveniences and information for the trip.

Guides will be furnished if desired. Parties of citizens, familiar with the Route, Valley and requirements of the journey, are frequently going, and strangers can hardly miss of companionable company for the present upon this route.

☞ Application to be made to Mr. F. Williams, at the Union Hotel, or to Messrs. Gregory and Barbour, at their Stables, Main street, Mariposa, will meet with prompt attention.

SICK CALIFORNIANS

**An honest Appeal to all with bad or failing Health!**

ARE YOU LANGUID, INANIMATE, RESTLESS. APPETITE POOR, DIGESTION BAD, and PAINS IN THE LIMBS, BODY, BACK and HEAD? Reader, much of this is caused from COLD caught unwittingly, or, in seven cases out of ten, SLUGGISHNESS OF THE LIVER and BLOOD, and WANT OF NATURAL PERSPIRATION, indescretion in the use of Food and Drink, or from a dryness in the atmosphere—which is a very unhealthy part of this climate—many of the AWFUL, VIOLENT AND SUDDEN DEATHS that occur here must be attributed to this. Now, reader, I have made this my study for many years, and I do assure you that my DR. WEBBER'S INVIGORATING CORDIAL will cure these causes—it will insure animation of the LIVER, BLOOD, and BRAINS; it strengthens the NERVES, and gives to the sufferer a LIGHTNESS OF SPIRITS, a MENTAL and BODILY FEELING OF STRENGTH, that is delightful. The many respectable persons who have been benefited by, and certified to its extraordinary qualities in curing any of the following diseases, must satisfy all but the self-wise and ignorant skeptic—*Dyspepsia or Indigestion, Loss of Muscular or Bodily Strength and Mental Energy; Fever, Ague, or Chills; Rheumatic, Neuralgic or other Pains; Depletion and Weakness of the Natural Functions, Debility from Disease, Dissipation, too much Doctoring, Debauchery*, and other causes; in case of excitement from constant *Intemperance*, and where *Delerium Tremens* has occurred, I have seen it change the sufferer in half an hour from the most horrible state to calmness and placidity. It can, indeed, be conscientiously recommended to all suffering, and the proprietor REGRETS DEEPLY that it is necessary thus to ADVERTISE it, in order that its merits may be known.

Constitutional Weakness.

DEBILITY FROM DISEASE, CLIMATE, DISSIPATION OR DEBAUCHERY.—Strength, vivacity and vigor to the limbs, body and mind, is given by DR. JACOB WEBBER'S INVIGORATING CORDIAL—it sends an electric thrill of life through the worn-out body, weak limbs and broken-down constitution; gives an appetite, removes Dyspepsia, calms irritability, causes quiet sleep, and is indeed the finest tonic, Nervine, and Sanguifier ever made. It is purely a vegetable compound, and can be used by the most delicate.

Cure for Intemperance.

THE APPETITE FOR LIQUOR DESTROYED.—One of the beautiful properties possessed by DR. WEBBER'S INVIGORATING CORDIAL, is that it removes all longing or taste for liquor. Many inebriates have found that after it has renewed and strengthened them, quieted their nerves, it has caused aversion to spirits. I have seen it cure some of the most frightful cases, where *delerium tremens* has actually occurred.

### MANUFACTORY & STORE.

I WISH TO CALL THE ATTENTION OF THE PUBLIC TO THE FOLLOWING:
Having been taught by experience and loss, that it will be more prudent to work at CHEAPER rates, and get paid for my work, than to charge higher prices and thus make honest customers pay for those that don't. I have came to the conclusion that in future I SHALL DO NO MORE WORK ON A CREDIT. No exception will be made to this rule; friends as well as strangers are expected to pay cash or its equivalent on delivery.
☞On the other hand, I am willing to do the same when purchasing.
Those that are indebted to me now, will assist me considerably in paying my old debts, by settling theirs.
In addition to the above, I would state that I am able and prepared to do any kind of work that can be made of wood, from the roughest Carpenter's work to the most Artificial work, including TURNING, CARVING, PAINTING, PAPER HANGING and GLAZING.
A limited assortment of Furniture constantly kept on hand, which will be sold hereafter at reduced prices.

### DR. L. J. CZAPKAY'S

*GRAND MEDICAL & SURGICAL INSTITUTE.*

SACRAMENTO STREET, BELOW MONTGOMERY,
*Opposite Pacific Mail Steamship Company's Office, San Francisco.*

Established in 1854, for the Permanent Cure of all Private and Chronic Diseases, and the suppression of quackery.
Dr. L. J. CZAPKAY, late in the Hungarian Revolutionary War, Chief Physician to the 20th Regiment of Honveds, Chief Surgeon to the Military Hospital of Pesth, Hungary, and late Lecturer on diseases of Urinary Organs and Diseases of Women and Children returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his institute for the cure of all forms of Private Diseases—such as syphilis gonorrhœa, nocturnal emissions, and all the consequences of self abuse. In the first stages of syphilitic or gonorhœal diseases, he guarantees a cure in a few days, without inconvenience to the patient or hindrance to his business. When a patient, by neglect or improper treatment, has developed the symptoms of secondary syphilis, such as bubos, or painful swellings of the groins, or ulcers in the throat or nose, which if not checked, destroy the soft parts and cause the bones to mortify, separate and come away, leaving the sufferer heideous to behold; or when blotches and pimples break out upon the skin, or when he has painful swellings upon the bones, or when his constitution is injured so as to predispose to consumption or constitutional disease, the Doctor guarantees a cure or asks no compensation.
In Rheumatism, chronic or acute, in Dysentery or Diarrhœa, he has safe and effectual remedies. For the treatment of the consequences of self-abuse, such as nocturnal emissions, nervousness, timidity, headache, pains in the back and limbs, with general weakness, loss of appetite, loss of memory, injury to the sight, restlessness, confusion of ideas, dislike for society, and a feeling of weariness of life, with the nervous system so excitedble that slight noises shock or startle the patient, making his existence miserable. For the above maladies the Doctor will guarantee a cure or ask no compensation. He can be consulted free of charge, and invites all to call, as it will cost them nothing, and may be much to their advantage.

**A Tribute to Merited Worth.**

☞A TESTIMONIAL RICHLY MERITED.—The ingratitude of man to his fellow man is so often met with in life, that testimonials, prompted by the finer feelings of the heart, are oasis in the life of those who sacrifice their best days in philanthropic devotion to the alleviation of the ills of frail mortality. Empiricism floods the columns of our press with fraudulent and fictitious letters; singing pæans to the worth of their own egotistical charlatanism. Below we append a letter from a worthy man, who, a brief period since, seemed destined to "shuffle off this mortal coil;" who looked forward to his dissolution with that pleasure which only those weighed down by the heavy hand of disease can. Contrary to hope, the ability of a skillful physician has restored him to his former health. Relieved from his terrible situation, and impelled by gratitude, he makes known his case and remedial agent, and his statement is authenticated by a Notary Public. The demands of society imperiously command its publicity; and it is given more to warn the unwary than to sound the praises of a physician of whom scores of like cases can be cited:

CERTIFICATE.

The undersigned, desirous of acquainting those who may be unfortunate enough to be similarly afflicted, with the means by which a permanent relief of their sufferings may be obtained, feels it his duty to thus publicly express his most sincere gratitude to Dr. L. J. Czapkay for the permanent recovery of his health. Borne down by the distressing symptoms incident to the vicious practice of uncontrollable passion in youth; depressed in body and mind; unable to perform even the most trifling duty imposed upon the daily avocations of life, I sought the advice of many physicians, who at first regarded my disease of trifling importance—but alas! after a few weeks, and to several hundreds from the date of their treatment, I found to my unutterable horror, that instead of relief, the symptoms became more alarming in their torture; and being told by one that my disease being principally confined to the brain, medicines would be of little consequence, I despaired of ever regaining my health, strength and energy, and as a last resort and with but a faint hope, called upon Dr. Czapkay, who after examining my case, prescribed some medicine which almost instantly relieved me of the dull pain and dizziness in my head. Encouraged by this result, I resolved to place myself immediately under his care, and by a strict obedience to all his directions and advice, my head became clear, my ideas collected; the constant pain in my back and groins, the weakness of my limbs, the nervous reaction of my whole body on the slightest alarm or excitement; the misanthropy and evil forebodings; the self-distrust and want of confidence in others, the incapability to study, and want of resolution; the frightful, exciting, and at times pleasurable dreams at night, followed by involuntary discharges, have all disappeared; and in fact, in two months after having consulted the Doctor, I felt as if inspired by a new life—that life which but a short time ago I contemplated to end by my own hand.
With a view to guard the unfortunate from falling into the snares of incompetent quacks, I deem it my duty to offer this testimony to the merit and skill of Dr. Czapkay and recommend him to all who may stand in need of medical advice, being assured, by my own experience, that under his care a radical and permanent cure will be effected. B. F. FILLMORE.
State of California, County of San Francisco. Subscribed and sworn before me, this 17th day of April, 1856. (Signed) JOHN MIDDLETON, [L. S.]
Notary Public.

A CARD.—Prompted by an honest desire of my heart, I wish to lay before the public, a case which deserves a high commendation, not only as an act of scientific skill, but that of humanity also. About two years ago, I suddenly and from some cause unknown to me, was seized with a fit of epilepsy, which, owing to my inability to meet the expense consequent upon a thorough medical treatment, and the failures which I met with on attempting it, soon became such (as I was then led to believe) as to defy the skill of a physician. I was frequently, while in pursuit of my calling, thrown down to the ground without the slightest warning, and although insensible to the agonies, I yet despised the miseries of my life, and soon learned to look upon those who would render me assistance or shelter me from danger as enemies who sought to prolong the misery of my existence. While in this state, and having previous to my affliction, tasted the sweets of life, I once more was induced to attempt seeking aid of a physician, and by recommendation, called upon Dr. L. J. Czapkay. I told him my circumstances, and my inability to reward him for all his services, regardless of which, however, he at once undertook the case, and with the blessing of God I was once more restored to perfect health. Unable to reward him for the boon which I enjoy at present, and yet conscious of my indebtedness, I consider it due to myself and to all afflicted, to make the case public, in order that those in need of medical advice may find a physician in whom every confidence can be placed.
[L. S.] MEYER YABLONSKY.
State of California, County of San Francisco.—Subscriged and sworn before me, this 1st day of August, 1856. GILBERT A. GRANT,
[L. S.] Notary Public.

**Greatest Discovery of the Age.**

GREAT BLESSING TO MANKIND!—Innocent but potent! Dr. L. J. Czapkay's Prophilacticum, (self-disinfecting agent,) a sure preventive against gonorrhœal and syphilitic diseases, and an unsurpassed remedy for venereal, scrofulous, gangrenous and cancerous ulcers, foetid discharges from the vagina, uterus and urethra, and all cutaneous eruptions and diseases. As inoculation is a preventive against small-pox, so is Dr. L. J. Czapkay's Prophilacticum a preventive against syphilitic and gonorrhœal diseases. Although harmless in itself, it possesses the power of chemically destroying the syphilitic virus and thereby saving thousands from being infected by the most loathsome of all diseases. Let no young man who appreciates health be without Dr. Czapkay's Prophilacticum. It is in very convenient packages, and will be found convenient to use, being used as a soap. Price $5. For sale at Dr. Czapkay's Private Medical and Surgical Institute, Sacramento Street, below Montgomery, opposite Pacific Mail Steamship Co.'s Office, San Francisco.
All orders must be addressed to L. J. Czapkay, M. D., San Francisco, California.

**Spermatorrhœa.**

J. Czapkay. His method of curing diseases is new, (unknown to others,) and hence the great success. All consultations, (by letter or otherwise) free. Address L. J. Czapkay, M. D., San Francisco, California.
